

SPARC Workshop Submissions 2026

As with previous years, the SPARC 2026 conference will include six workshops aligned with the theme of the conference. This year's conference theme is "10 Years Connecting Research, Policy and Practice in Physical Activity." We welcome workshop proposals from across the physical activity community.

The proposed workshop should be about Scotland, Scottish data, Scottish projects or you should outline how the material covered can be transferable to a Scottish setting or context.

Whilst there is, of course, flexibility in the content and delivery of each workshop, we encourage presenters to consider how the workshop can incorporate a range of activities to encourage some information sharing, and interaction. Workshops will be 1 hour in duration.

Proposals will be reviewed by the SPARC Scientific Committee, and if your proposal is selected we will liaise with you directly to finalise the content and format. If you would like to discuss your proposal in advance, then please contact sparc@ed.ac.uk

More details on the SPARC Conference can be found on our website: <https://www.sparc.education.ed.ac.uk>
